**REQUEST FOR
EXISTING WATER RIGHTS LIST**

- FEE: \$10.00 MUST BE SUBMITTED WITH THIS FORM. •

INSTRUCTIONS:

Use this form to request a listing of water rights which may be adversely affected by your proposed diversion of water. You should receive the report within one week from the time the Department receives your request.

For SURFACE WATER, complete side A. For GROUNDWATER, complete side B. For developed springs, both surface and groundwater water right may need to be research. If so, complete both side A and side B.

The printout you receive is prepared for complete sections of land, i.e. All of Section 31, Twp. 32N, Rge. 16E. Some of the listed water rights may not be affected by your proposed use for various reasons. For instance, some rights may be on another source, upstream from your proposed diversion or outside a 1/2 mile radius of your well. Eliminate the rights which do not apply to you and adjust the total flow rate and volume figures accordingly.

For help completing this form, contact your local Water Resources Regional Office.

SURFACE WATER:

You should review water rights approximately three miles downstream of your point of diversion, therefore, identify the land descriptions for three miles downstream. For each land description entered, check UNNAMED TRIBUTARY (UT) or enter the STREAM NAME. If you check UT, the report will show unnamed tributaries within the land descriptions entered. If you only need water rights on the named stream for the land descriptions entered, enter the STREAM NAME.

For each land description entered, check UNNAMED TRIBUTARY or enter the STREAM NAME. Enter the sections, townships and ranges for the area affected. Use whole section numbers. Circle **N** = North or **S** = south for the township and **E** = East or **W** = West for the range.
